

BJDVD LTD
Statement on commercial funding

BJD seeks to work in collaboration with any organisation who shares its aims of improving the diagnosis, care, and treatment of people with diabetes. This includes commercial companies and government as well as other professional societies/charities. Our primary consideration in any collaboration is ensuring that our independence is not in any way compromised and we are free to act in the best interests of our members and what we consider to be the best interests of people with diabetes.

Written agreements are in place for all commercial membership programmes and other funding. The sources of funding are declared and made transparent on the BJD website and on relevant materials.
